## TABLE OF CONTENTS

ACCESS CONTROL METHOD	01~02
FACE RECOGNITION DEVICE	03~04
STANDARDIZATION AND CUSTOMIZATION	05~06
SPEED GATE SERIES	07~10
SWING TURNSTILE SERIES	11~18
FLAP TURNSTILE SERIES	19~22
TRIPOD TURNSTILE SERIES	23~26
FULL HEIGHT TURNSTILE SERIES	27~28
HALF HEIGHT TURNSTILE SERIES	29~30
SLIDING GATE SERIES	31~32
DROP ARM GATE SERIES	33~34
ALL TURNSTILE MODELS	35~39

## »Access Control Method

Barcode

Fingerprint

Face

Card

QR Code

Button

## «Cloud Control Board»

## »Android Face Recognition

**TM-81**

Model	TM-81
Product Features	Support face, card swipe (IC/ID), password
Support Optional	Fingerprint/QR code/ID card/palm vein/palm print/alcohol test,
Operating System	Android operating system: Android 11
Processor	RK3568: Quad-core 64-bit Cortex-A55, clocked at up to 2.0GHz
Face Database	4W face database/8W recognition records
Camera	Binocular: 2 million effective pixels/supports living body detection
Screen Size	8-inch, full-viewing IPS LCD screen, 1280*800 resolution
Mask Detection	Support mask detection
Liveness Detection	The accuracy rate is 99.5%; the face recognition pass speed is less than 0.3S
Signal	WiFi/Ethernet/4G (optional)
Structural Design	Bo Kong aluminum alloy material, ultra-thin design
Protection Level	IP65/waterproof and dustproof
Storage	2+16GB, (optional: 4+32G/64G)
Operating temperature	-20°C ~ +60°C
Input Power	DC12V/2A
Audio Output	3Ω 2W
Doorbell Button	Support doorbell button
Front-end Operations	Support personnel registration, equipment configuration, information query
Microphone	Supports microphone input audio and speaker output audio (optional)
Hardware Interface	WG26, WG34, USB, door sensor, doorbell, door opening, RS485
Interface Protocol	Supports TCP and HTTP protocols under multiple platforms such as Windows/Android
Custom	Customizable change of verification methods and other requirements

**TM-S1-P-IC**
**TM-S1-IC-F**

Model	TM-S1-P-IC
Product Features	Supports palm print/palm vein/card swipe/face/password verification (fingerprint optional)
Palmpoint algorithm	Read speed 800 milliseconds
Recognition distance	0.2m-0.5m
Swipe card module	Reading speed ≤ 0.5 seconds
Screen size	IPS.50 inch LCD display screen; Resolution 720 * 1280
Camera	200W resolution
CPU	RK3568, quad core, main frequency 2.0GHz
Storage capacity	2+16GB built-in
System version	Android 11 system
Wiegand	Supports Wigan 26/34 adaptive transmission
Enabling signal	COM/NO/NC
USB	1-way USB interface
Serial port	RS485
Signal	WIR 2.4G/Bluetooth 5.0/Ethernet(optional 4G)
Fingerprint capacity	5,000
Structural design	Glass panel + aluminum alloy
Overall size	196.73mm*92mm*16.25mm
Weight	0.45KG
Input power supply	Power adapter 12V/2.5A
Audio output	3Ω 2W
Installation method	Wall-mounted installation/embedded gate
Custom	Customizable change of verification methods and other requirements

## Linux Face Recognition«

Face Capacity	1: N mode	20,000 people
Face recognition	Storage capacity	100,000 control records + fear records
	Identification speed	<0.5s
	Accuracy:	1: N mode: 0.01% error rate (pass rate of 99.7% with 97% pass rate supported)
Display and lighting	Screen parameters	800 * 1280, Full Perspective, 8-inch IPS HD Display
	Screen brightness	≥ 400cd/m²
	Resupplement	Night infrared and LED double complement light
Face camera	Resolution	2.1 MP, 1920 * 1080
	Quantity	2, dynamic ocular wide dynamic lens
	Focus distance	6mm
	White Balance	Automatic
	Wide dynamic	100db, isp algorithm face local exposure
Hardware interface	Local Flash Storage	8G
	USB Extension	USB2.0 Type-A interface
	Serial port	1 * RS485
	Relay output	2.5mm terminal 2P
	wiegand input	2.5mm terminal 2P
	wiegand output	5mm terminal 4P
	Network interface	1 RJ45, 10M/100M adaptive Ethernet port, WiFi(optional)
Others	Use environment	Half-outdoor, with a canopy shelter
	Power supply	DC12V/3A
	Operating temperature	-10°C ~ +50°C
	Working humidity	0~90% Relative humidity, no condensation
	Power	20W MAX

## » Standardization

7 types of products  
12 standard features

- » 1. Can be used with other style passage gate in the same system
- » 2. With automatic reset function, the barrier arm always can return to initial position after passing
- » 3. With traffic light indication, passage convenient and faster
- » 4. Can be linked to a various of IC card, ID card reader controller, suits all kinds of IC card, ID card, barcode, magcard
- » 5. Can be expanded to identification system, realize the function of entrance guard, flow-limit and checking-in.
- » 6. Can be set infrared sensor, with illegal enter alarm, following alarm, reverse the passage alarm and normal traffic splinter alarm
- » 7. With fault self-check function, convenient maintenance and function adjusting
- » 8. Can be set normally open or normally close working mode, meet management requirement
- » 9. With technology function, can accurate record the number of passager
- » 10. Anti-following function, after passing one, barrier arm will automatically lock, completely realize one man one rod
- » 11. Can be connected with all various of biometrics head reader like QR code, fingerprint, face recognition etc.
- » 12. With uniform standards external electrical interface, can be connected with other control equipment, convenient for integrating, and can by managing computer realize remote control and management

## Customization «

9 customizable features

### Ticketing system

The ticketing system is applicable to various scenic spots, exhibitions, gym clubs and other scenarios, facilitating comprehensive management of merchants.

### Construction site system

Construction site access management system, easy to manage, external LED screen, display various information.

### Attendance system

can expand fingerprint authentication, swipe card, face recognition, iris recognition, vein recognition and other different authentication methods.

### Access control system

Security management of different personnel through rights management, suitable for closed places, such as: enterprises, schools, factories, etc.

### Visitor system

make full use of modern information technology, truly achieve the "integration of people and Certificates" entry registration, logout, people corresponding, hierarchical management and other functions.

### School System

suitable for kindergarten, driving school, school, examination and other required swipe card, take pictures, gate opening scene

### Custom development

it can be customized according to the needs of development, such as APP control, external display and other functions

### APP system

Switching gates through mobile phone APP for easy property management

### ID card identification

ID card identification system successfully applied to universities, driving schools, libraries, etc.

# >>Speed Gate Series

Model No.:DS-ST001

# Speed Gate Series<<

Parameters Description

Cabinet Material	304 Stainless Steel	Protection function	Encoder limit,Clutch anti-collision,Infrared anti-pinch,Break-in alarm function
Dimensions	1400*180*1000mm	Direction	Bi-directional
Weight	80KG	Service Life	5million times
Arm Length	≤450mm	Operating Temperature	-25℃ ~ +60℃
Passage Width	≤900mm	Related Humidity	≤90%RH
Opening Signal	Relay	Communication Interface	TCP/IP
Material Thickness	1.5mm	Power Rate	90W
Card-reading Window	Two	Power Supply	AC 220V/110V ±10% 50/60MHZ (optional)
Infrared sensor	4Pairs	Opening Speed	30-45persons per minute

# Speed Gate Series

Model No.:DS-ST002

Parameters Description

Cabinet Material	304 Stainless Steel	Protection function	Encoder limit,Clutch anti-collision,Infrared anti-pinch,Break-in alarm function
Dimensions	1400*180*1000mm	Direction	Bi-directional
Weight	80KG	Service Life	5million times
Arm Length	< 450mm	Operating Temperature	-25℃ ~ +60℃
Passage Width	< 900mm	Related Humidity	< 90%RH
Opening Signal	Relay	Communication Interface	TCP/IP
Material Thickness	1.5mm	Power Rate	90W
Card-reading Window	Two	Power Supply	AC 220V/110V ±10% 50/60MHZ (optional)
Infrared sensor	4Pairs	Opening Speed	30-45persons per minute

# »Swing Turnstile Series

Model No.:DS-BZ001

# Swing Turnstile Series«

Parameters Description

Cabinet Material	304 Stainless Steel	Protection function	Infrared anti-pinch,Break-in alarm function
Dimensions	1400*200*980mm	Direction	Bi-directional
Weight	80KG	Service Life	5million times
Arm Length	≤450mm	Operating Temperature	-25℃ ~ +60℃
Passage Width	≤900mm	Related Humidity	≤90%RH
Opening Signal	Relay	Communication Interface	TCP/IP
Material Thickness	1.5mm	Power Rate	90W
Card-reading Window	Two	Power Supply	AC 220V/110V ±10% 50/60MHZ (optional)
Infrared sensor	4Pairs	Opening Speed	30-45persons per minute

# »Swing Turnstile Series

Model NO.:DS-BZ002

Parameters Description

Cabinet Material	304 Stainless Steel		Protection function	Infrared anti-pinch,Break-in alarm function
Dimensions	Column diameter 168mm	Height 1050mm	Direction	Bi-directional
Weight	60KG		Service Life	5million times
Arm Length	<1000mm		Operating Temperature	-25℃ ~ +60℃
Passage Width	<2000mm		Related Humidity	≤ 90%RH
Opening Seignl	Relay		Communication Interface	TCP/IP
Material Thickness	1.5mm		Power Rate	90W
Card-reading Window	Two		Power Supply	AC 220V/110V ±10% 50/60MHZ (optional)
Infrared sensor	3Pair		Opening Speed	30-45persons per minute

## »Swing Turnstile Series

Model No.:DS-BZ003

### Parameters Description

Cabinet Material	304 Stainless Steel	Protection function	Infrared anti-pinch,Break-in alarm function
Dimensions	1200*280*980mm	Direction	Bi-directional
Weight	60KG	Service Life	5million times
Arm Length	<900mm	Operating Temperature	-25℃ ~ +60℃
Passage Width	<1800mm	Related Humidity	<90%RH
Opening Signal	Relay	Communication Interface	TCP/IP
Material Thickness	1.5mm	Power Rate	90W
Card-reading Window:	Two	Power Supply	AC 220V/110V ±10% 50/60MHZ (optional)
Infrared sensor	4Pairs	Opening Speed:	30-45persons per minute

# »Swing Turnstile Series

Model No.:DS-BZ004

Infrared sensor	4Pairs	Opening Speed:	30-45persons per minute

## »Flap Turnstile Series

Model No.:DS-YZ -001

## Flap Turnstile Series«

Parameters Description

Cabinet Material	304 Stainless Steel	Protection function	Infrared anti-pinch,Break-in alarm function
Dimensions	1200*300*980mm	Direction	Bi-directional
Weight	60KG	Service Life	5million times
Flap Barrier Material	PVC/Acrylic	Operating Temperature	-25℃ ~ +60℃
Arm Length	≤300mm	Related Humidity	≤90%RH
Passage Width	≤600mm	Communication Interface	TCP/IP
Opening Signal	Relay	Power Rate	90W
Material Thickness	1.5mm	Power Supply	AC 220V/110V ±10% 50/60MHZ (optional)
Card-reading Window:	Two	Opening Speed:	30-45persons per minute
Infrared sensor	3Pairs		

## »Flap Turnstile Series

Model No.:DS-YZ002

## Flap Turnstile Series«

Parameters Description

Cabinet Material	304 Stainless Steel	Protection function	Infrared anti-pinch,Break-in alarm function
Dimensions	1400*300*980mm	Direction	Bi-directional
Weight	70KG	Service Life	5million times
Flap Barrier Material	PVC/Acrylic	Operating Temperature	-25℃ ~ +60℃
Arm Length	≤ 300mm	Related Humidity	≤ 90%RH
Passage Width	≤ 600mm	Communication Interface	TCP/IP
Opening Signal	Relay	Power Rate	90W
Material Thickness	1.5mm	Power Supply	AC 220V/110V ±10% 50/60MHZ (optional)
Card-reading Window:	Two	Opening Speed	30-45persons per minute
Infrared sensor	3Pairs		

# Tripod Turnstile Series

Model NO.:DS-GZ001

# Tripod Turnstile Series

Parameters Description

# »Tripod Turnstile Series

Model NO.:DS-GZ002

# Tripod Turnstile Series«

Parameters Description

Cabinet Material	304 Stainless Steel	Direction	Bi-directional
Dimensions	1200*280*980mm	Service Life	5million times
Weight	50KG	Operating Temperature	-25℃ ~ +60℃
Arm Length	≤510mm	Related Humidity	≤90%RH
Passage Width	≤550mm	Communication Interface	TCP/IP
Opening Signal	Relay	Power Rate	90W
Material Thickness	1.5mm	Power Supply	AC 220V/110V ±10% 50/60MHZ (optional)
Card-reading Window	Two	Opening Speed	30-45persons per minute
Protection function	Infrared anti-pinch,Break-in alarm function		

## »Full Height Turnstile Series

Model NO.:DS-FH001

## Full Height Turnstile Series«

Parameters Description

<b>Cabinet Material</b>	304 Stainless Steel	<b>Protection function</b>	Infrared anti-pinch,Break-in alarm function
<b>Dimensions</b>	1350*1500*2300mm	<b>Direction</b>	Bi-directional
<b>Weight</b>	150KG	<b>Service Life</b>	5million times
<b>Channel</b>	Single	<b>Operating Temperature</b>	-25℃ ~ +60℃
<b>Blades</b>	3/4pcs	<b>Related Humidity</b>	< 90%RH
<b>Rod Length</b>	< 510mm	<b>Communication Interface</b>	TCP/IP
<b>Angel</b>	< 90/120 degree	<b>Power Rate</b>	90W
<b>Opening Signal</b>	Relay	<b>Power Supply</b>	AC 220V/110V ±10% 50/60MHZ (optional)
<b>Material Thickness</b>	1.5mm	<b>Opening Speed</b>	30-45persons per minute
<b>Card-reading Window</b>	Two		

## »Half Height Turnstile Series

Model NO.:DS-HH001

## Half Height Turnstile Series«

Parameters Description

<b>Cabinet Material</b>	304 Stainless Steel	<b>Protection function</b>	Infrared anti-pinch,Break-in alarm function
<b>Dimensions</b>	1400*1400*1200mm	<b>Direction</b>	Bi-directional
<b>Weight</b>	100KG	<b>Service Life</b>	5million times
<b>Channel</b>	Single	<b>Operating Temperature</b>	-25℃ ~ +60℃
<b>Blades</b>	3/4pcs	<b>Related Humidity</b>	< 90%RH
<b>Rod Length</b>	< 510mm	<b>Communication Interface</b>	TCP/IP
<b>Angel</b>	< 90/120 degree	<b>Power Rate</b>	90W
<b>Opening Signal</b>	Relay	<b>Power Supply</b>	AC 220V/110V ±10% 50/60MHZ (optional)
<b>Material Thickness</b>	1.5mm	<b>Opening Speed</b>	30-45persons per minute
<b>Card-reading Window</b>	Two		

# >>Sliding Gate Series

Model No.:DS-PY001

# Sliding Gate Series<<

Parameters Description

Cabinet Material	304 Stainless Steel	Protection function	Infrared anti-pinch,Break-in alarm function
Dimensions	1200*330*980mm	Direction	Bi-directional
Weight	70KG	Service Life	5million times
Arm Length	≤ 300mm	Operating Temperature	-25℃ ~ +60℃
Passage Width	≤ 600mm	Related Humidity	≤ 90%RH
Opening Signal	Relay	Communication Interface	TCP/IP
Material Thickness	1.5mm	Power Rate	90W
Card-reading Window	Two	Power Supply	AC 220V/110V ±10% 50/60MHZ (optional)
Infrared sensor	4Pairs	Opening Speed	30-45persons per minute
